

BOARDROOM IN A BOX

Businesses today rely on modern electronic technology in their boardroom to make decisions as well as presenting innovative ideas and solutions to their clients.

The boardroom is therefore the hub of the company activities and its state of the art audio visual equipment reflects the competence of the company.

This requires an advanced set of tools such as projector, sound system, presentation sources such as DVD, VCR and computer and video conferencing, controlled in a seamless manner using touch screen control , wireless keyboards and mouse.

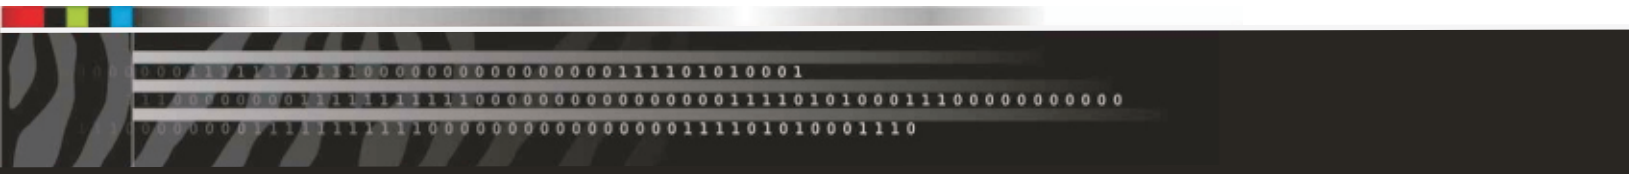

Unfortunately due to the rapid advances in technology it could become archaic in no time.

Questek is at the forefront of a audio visual technology in South Africa and has been responsible for many prestigious and mission critical installations.

Questek understands the dilemma most companies are in when deciding on the purchase of audio visual equipment

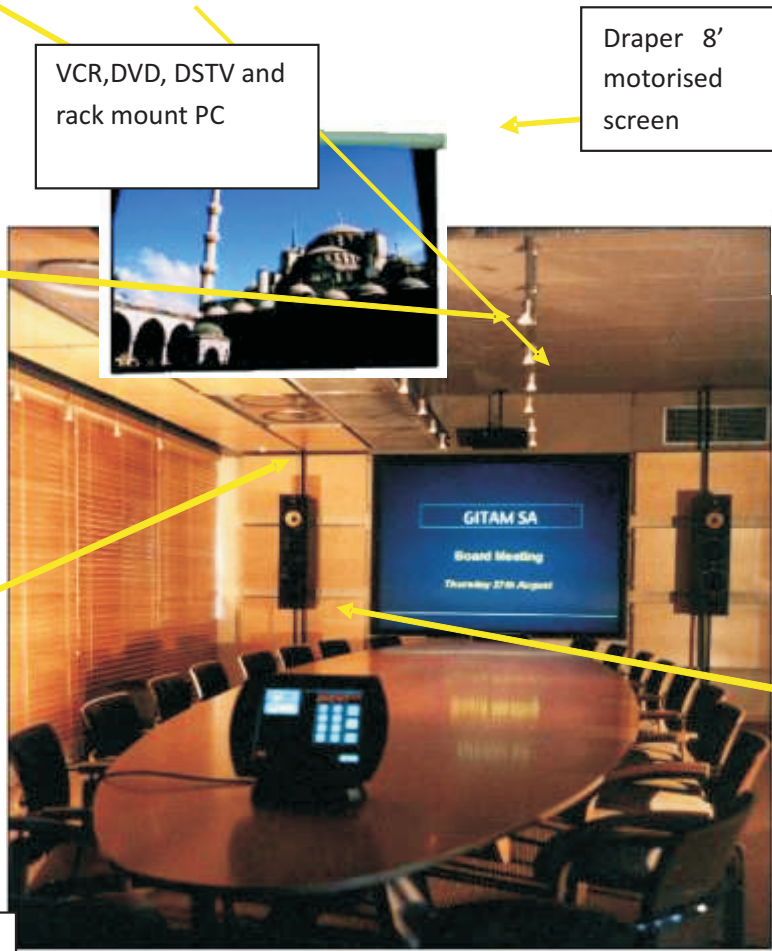

We have therefore d esigned aWorld-Class Audio Visual solution comprising of the latest equipment such as Tandberg video conferencing, AMX colour touch screen control system, Projection Design DLP projector and a equipment rack loaded with all presentation media, bundledas affordable rental package.

The system is rented at an price ranging from R 4000.00 per month and at any stage in the future can be upgraded to newer generation equipment .
